

The compact cylinders of CM series comply the ISO 21287 norm and are particularly suitable for the use in small spaces thanks to their reduced dimensions, ensuring at the same time excellent characteristics of stability. The available bores are comprised between Ø12 e 100 mm, and the fixing position to the ISO norms.

Kompaktní válce řady CM splňují normu ISO 21287 a jsou zvláště vhodné pro použití v malých prostorech díky svým zmenšeným rozměrům a současně zajišťují vynikající vlastnosti stability. Dostupné otvory jsou mezi Ø12 e 100 mm a upevňovací polohou podle norem ISO.

I cilindri compatti della serie CM di POS sono, grazie alla loro compattezza, particolarmente adatti per impieghi in piccoli spazi.

Questi cilindri grazie al loro tipo di costruzione, garantiscono buone caratteristiche di stabilità. Gli alesaggi sono compresi tra Ø12 e 100 mm e hanno interassi di fissaggio a normativa ISO.
